

To Whom It May Concern:

I am a 4th year student in KTU Software Engineering. In order to do summer internship in your company,

I request that my resume and application be evaluated. The theoretical education I have gained I would like to combine it with the practical knowledge I will gain during the internship.

I want to reinforce what I have learned and improve myself more. I think I can improve myself while adding value to our company.

In conclusion; I request that my attached resume be considered as an internship assignment.

Thank you for your interest.
